

## Collaborative Palletizer

### FEATURES AND BENEFITS

- Collaborative Palletizers are intrinsically safe to work near people
- Small footprint, approximately 25% to 30% of the conventional robotic palletizer
- Automatic jam detection without product damage, easy jam clearing by moving components out of the way
- No additional safety guarding is needed
- Handles up to 12 cases per minute
- Less investment than many traditional palletizers
- 35 kg/77 lb payload
- Accommodates standard 40" x 48" pallet
- Self-contained controls
- Accommodates a variety of pallet patterns
- Case size: 6x6x4" – 20x13x13"
